

# SC-RSD4

## RS232D4 MODULE

Serial Expansion Module

### FEATURE

- RS-232c signal output with 4 communication ports
- Simultaneous data reception
- Communication speed can be set for each port

## RS485D4 MODULE

Serial Expansion Module

### FEATURE

- RS-485 signal output with 4 communication ports
- Simultaneous data reception
- Communication speed can be set for each port

## RCU mini MODULE

Relay Control Module

### FEATURE

- 8-channel sensor input signal control
- Trigger type 8-channel contact output (30V per channel, 2A)
- External switch interlocking control

## DMX MODULE

Special Lighting Control Module

### FEATURE

- Control lighting using DMX protocol
- Remote control using RS-485 communication

## WLM MODULE

W/L Lighting Control Module

### FEATURE

- 2.4GHz W/L lighting control
- Two-way communication with light switch
- Extendable Up to 250 Units

## SPECIFICATION

	SC-RSD4
Module Series	RS232D4 / RS485D4 / DMX / RCU mini / WLM
